- **New Features**
 - **Vietnamese OCR**
 - **Last Document Scanning**
 - **Support for Polish and Czech Scanner Driver Translations**
 - **TLS 1.2 Support for Capture Pro Network Edition**
 - **Automatic Restart**
- **Problems Fixed**

Capture Pro Version 5.9.0 Availability

Is now available on the Alaris World web site

- Production version posted to Capture Pro Support page:
www.alarisworld.com/go/captureprodownload
- Limited Edition updated for all current scanner support pages:
<https://support.alarisworld.com>

Upgrading to Version 5.9.0 (1)

Upgrading Stand-Alone Installations

- The customer's **Capture Pro Software Serial Number** must be entitled to the 5.9 release
 - **The Entitlement Date (or Software Assurance Expiration Date) must be March 1, 2021 or later**
- To upgrade, download the installer (**CapProSW_5_9_0.exe**) file from www.alarisworld.com/go/captureprodownload and run it.
 - **The installer will automatically upgrade an existing Capture Pro install to Version 5.9.0**
 - **When upgrading from Version 5.8 or earlier, an Internet connection is required during the upgrade as the KODAK Alaris licensing system will generate a new 5.9 license**

Upgrading to Version 5.9.0 (2)

Upgrading Network Edition Installations

- Both the NE Server and the NE Client workstations must be upgraded to Version 5.9 at the same time.
 - You cannot run a Version 5.8 client workstation with a Version 5.9 NE Server
 - You cannot run a Version 5.9 client workstation with a Version 5.8 NE Server
- To upgrade, download the installer files from www.alarisworld.com/go/capturepronedownload and run them
 - IIS on the Network Edition Server must be STOPPED prior to the upgrade and RESTARTED after the upgrade

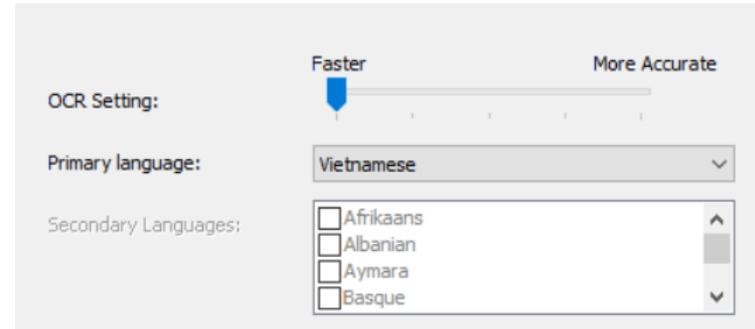

New Features (1)

Vietnamese OCR

- Vietnamese language can now be selected when doing **drag n' drop (or point-and-click) OCR, zonal OCR, or Searchable PDF output**

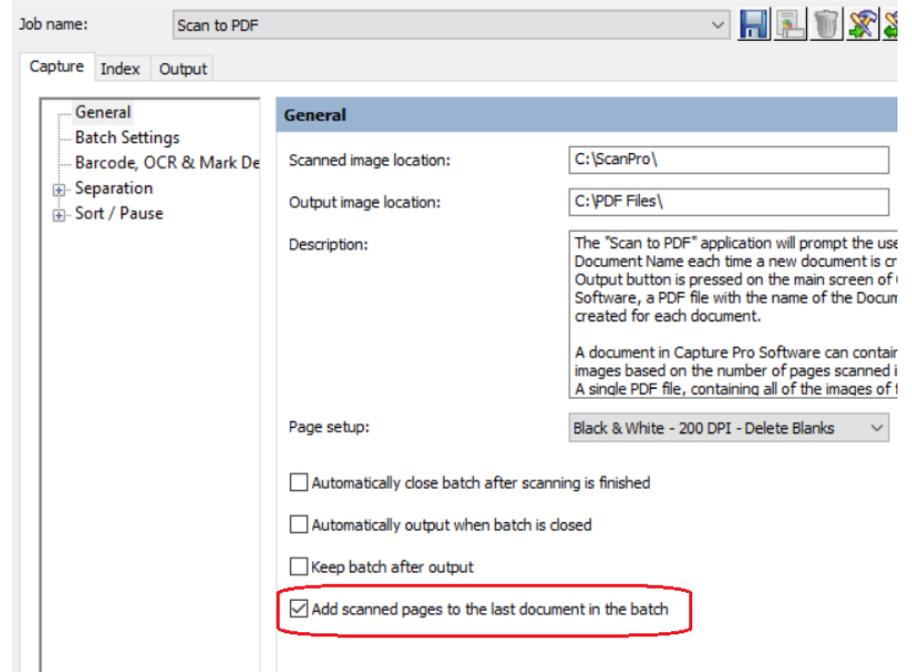

- Available in both Capture Pro full version and Limited Edition

New Features (2)

Last Document Scanning

- **New Job Setup option** to ensure that all newly scanned pages are appended to the last document in the batch
 - **Exception:** Document and batch separation rules always take precedence
 - When disabled, default behavior of appending newly scanned pages to currently displayed document will occur
 - Available in both Capture Pro full version and Limited Edition

New Features (3)

Support for Polish and Czech scanner driver translations

- Capture Pro Version 5.9 will fully support scanning in the corresponding GUI language for the following scanners:
 - **E1000 Series Scanners – Polish language**
 - **S2000 Series Scanners – Czech language**
 - **S3000/S2085f Scanners – Polish language**

TLS 1.2 Support for Capture Pro Network Edition

- The Capture Pro Network Edition Server will now support configurations where **HTTPS is enabled and TLS 1.0 and 1.1 are disabled on the server**
- The following operating environments have been certified:
 - **Windows Server 2012 R2 with Windows 8 Network Edition Clients**
 - **Windows Server 2016/2019 with Windows 10 Network Edition Clients**

New Features (4)

Automatic Restart

- **New Workstation Setup option** to help prevent Capture Pro from running out of system resources when scanning very high volumes in a single Capture Pro session
- High Volume Scanning Guidelines for when automatic restart may need to be enabled
 - 32,000 simplex pages
 - 16,000 duplex pages
 - 8,000 pages scanned in dual stream (i.e., simultaneous color/grayscale and black & white)

Workstation Setup

Workstation

ID: 1

Name: Capture_1

Quick Start View

Scanner

Scanner family: KODAK Scanner: i5000 Select...

Scanner model: i5650

Disk

Disk warning level: 20 MB

Batch

Enable Job level batch numbering

Display confirmation message before batch output

Page

Display confirmation message during manual deletion if page size exceeds 1024 KB

Automatic restart limit

Restart Threshold: 15000 [Number of scanned sheets]

Restart Offset: 200 [Number of maximum additional scanned sheets]

OK Cancel

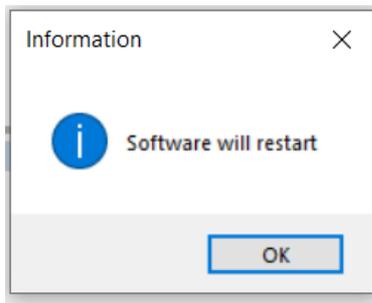

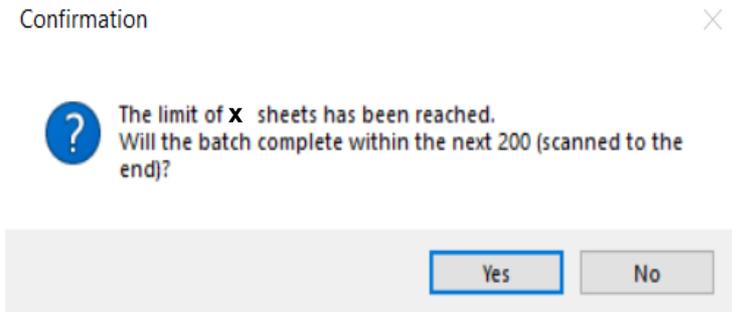

New Features (5)

Automatic restart limit

Restart Threshold	<input type="text" value="15000"/>	[Number of scanned sheets]
Restart Offset	<input type="text" value="200"/>	[Number of maximum additional scanned sheets]

Automatic Restart (How It Works)

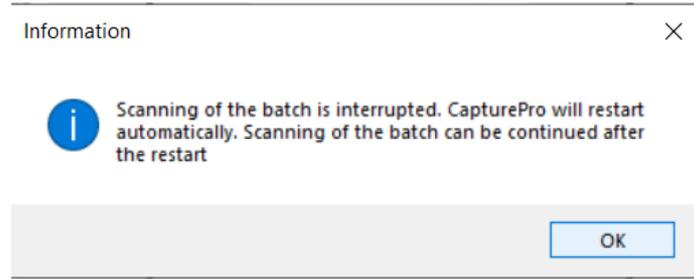

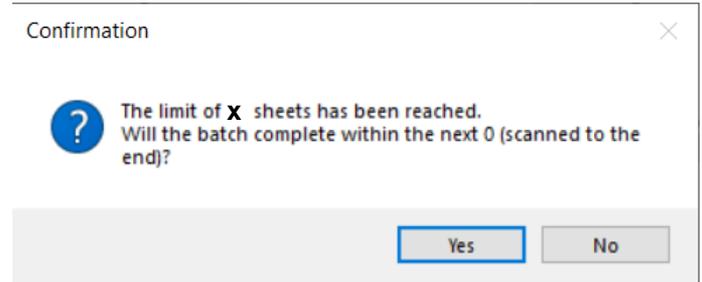

- When enabled (i.e., **Restart Threshold** is not 0), the user will get this message when the page count has been reached and scanning will stop
- If the user selects **Yes**, scanning will automatically be resumed.
- If the user completes the batch and closes it before the number of **Restart Offset** pages are scanned, this message will be displayed, and Capture Pro will automatically be shut down and restarted
 - If the user **outputs** the batch, the batch will be queued for output, Capture Pro will automatically restart, and batch processing will take place after the restart

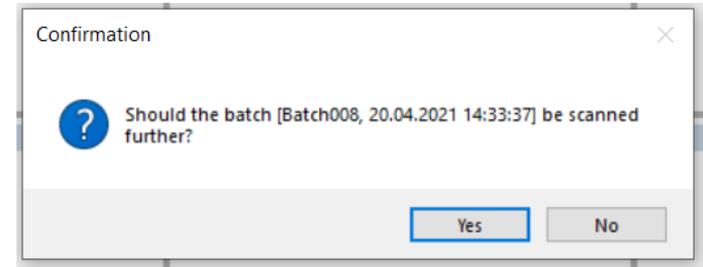

New Features (6)

Automatic Restart (How It Works – continued)

- If the user selects **No**, or the **Restart Offset** is set to 0, then this message is displayed, and Capture Pro will automatically restart

- After Capture Pro restarts, while scanning into a batch was interrupted, this message will be displayed 
 - If the user answers **Yes**, the batch will be opened, and scanning will resume automatically.
 - If the user answers **No**, a new batch will be created for the current Job and scanning will resume automatically

Problems Fixed in 5.9.0

- **i5x50 Print String and Scanner Counter not configured correctly upon restart of Capture Pro**
 - Problem will only occur if a **Flatbed Scan was the last scan performed** before exiting and restarting Capture Pro
 - Problem will not occur on an i5850 with Image Addressing
- **When auto importing a large PDF file with at least 200 pages, the first 100 pages are repeatedly imported**
 - Problem would only occur when upgrading from a 5.5.1 release (or earlier) to Version 5.7.3 or 5.8.0
 - Will no longer occur when upgrading to Version 5.9.0
- **Intermittent Auto Import hang with Capture Pro Version 5.7.1**
 - Hang would occur every 1-2 days
 - 20 Hot Folder definitions

Problems Fixed in 5.9.0 (continued)

- **SharePoint output option not available** after installing Capture Pro Limited Edition
 - Problem was in the Version 5.8 Capture Pro LE installer downloaded from the KODAK Alaris website
 - Has been fixed in the [CapProSW_5_9_0_LE.zip](#) download file
