KODAK Capture Pro Software
Limited Edition (LE)

Versatile & Accurate Capture Solutions

Digitizing high volumes of documents and data is a tedious manual process, wrought with human error and frustration. These inefficiencies are costly and time-consuming and organizations require a solution that takes the complexity out their digitization processes.

Advance Capture IN-THE-BOX

Capture Pro LE is our signature IN-THE-BOX capture software that efficiently drives high-speed, high-accuracy batch capture and simple data extraction.

One Touch Automation

Simplify routine scanning by configuring up to 20 preset scanning tasks accessible from the scanner UI.

Dual-stream Processing

Capture Pro LE allows you to customize up to two document streams of a single scanned document. Scan once and output to multiple destinations with individual scanning profiles.
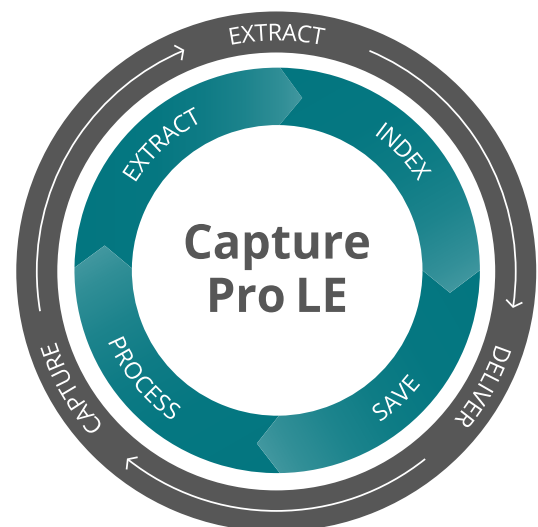

Industry Leading Recognition

Capture Pro LE is powered by an industry leading OCR engine that can recognize up to 126 languages.
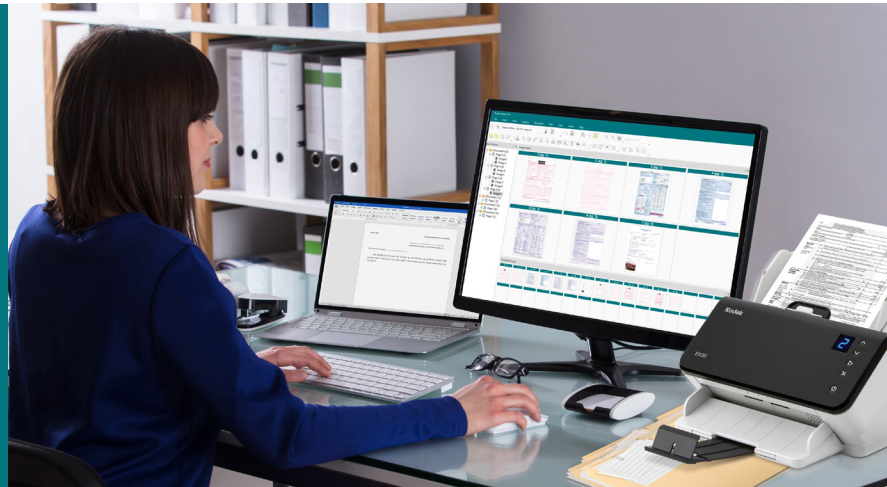

Organizing Information

Capture Pro LE includes basic indexing with up to 20 index fields that can be manually entered or automatically filled using Zonal OCR and 1D/2D Barcode data.

Simplify high-volume data capture processes with accurate, versatile, and headache-free capture solutions.

Capturing Control

Stay in control of your scanning processes with real-time or thumbnail image previews while scanning. No scanned job is complete unless you say it is; you can add, delete, crop, or re-order scanned images before it's exported as a document.

Creating the Right Document

The final steps in the capture process involves the exporting of documents or images for downstream processes. Capture Pro LE delivers images/documents in a variety of industry-standard formats, such as TIFF, JPEG, PNG, or text-searchable PDF.

Truly Global Solution

Capture Pro LE is available in 17 different languages, ideal for mixed-language environments, regardless of where you or your company are located.

Upgrade at Any Time!

As your capture needs change or increase, Capture Pro LE can easily transition to our full version edition with expanded capabilities.

Features	
Supported Scanner Series	All Kodak Scanners except i5000/S5000 Series
One Touch Scanning	**Up to 9**: ScanMate, E1000 **Up to 20**: S2000, S2000w, S2085f, S3000, S3000 Max, i4000
Basic Image Processing	Rotate, Crop, Blank Page Removal
Advanced Image Processing	Insert, Rescan, Reorder
Job Separation	Blank Page, Barcode, Count, OCR
Indexing Type	Barcode, Drag & Drop, Zonal OCR
Indexing Fields	20
File Output Types	PDF, Searchable PDF, PDF/A, Compressed PDF, Protected PDF, TIFF, Multi-page TIFF, JPEG, PNG
Output Destinations	Local PC, EMAIL, MS SharePoint, MS SharePoint Online
Operating Systems	Windows 10/11 (Pro/Enterprise)
Minimum System Requirements	Intel Core i5 2.8 GHz Processor or higher, 8GB of Memory, 10GB of available disk space
